

Assignment - 07

1. Create a function to print prime numbers between two numbers by using C++ programming language
2. Write a Program to print the Fibonacci sequence of a number using functions.
3. Write a program to find the factorial of a given number by using a function in C++ programming language.
4. Write C++ program to check even or odd using functions
5. Write C++ Program to convert binary number to decimal
6. Write C++ Program to convert decimal number to binary
7. Write C++ program to find diameter, circumference and area of circle using function
8. Write C++ program to find power of a number using recursion
9. Write C++ program to find sum of natural numbers in given range using recursion
10. Write C++ program to print elements of array using recursion
11. Write C++ program to find sum of array elements using recursion
12. Write C++ program to check palindrome number using recursion
13. Write C++ program to find maximum and minimum elements in array using recursion
